

# Got Soul

## The Family Crest

Hey I've got soul if you want it  
Still you need more than you're given  
I've got my own now Shake down your boots in the evening  
Fly from your coup when you're feeling  
I've got my own now Now that the rain comes down they want you  
Now that you're moving out they need you  
Now that the sun goes down, now Shake down your boots in the evening  
Fly from your coup when you're feeling  
I've got my own now Here in the night you did feel their arms  
Grasped so tight to your back  
And I've got my own now Now that the rain comes down they want you  
Now that you're moving out they need you  
Now that the sun goes down, now Now that the wind, it howls  
Their hearts, they break with the bitter sound  
They need you  
A piece of me is a piece of you right now And there's no time for you, my dear  
So there's no reason why I'm here And there's no time for you, my friend  
So there's a reason for an end Ich liebte dich, aber vergan deine Gierigkeit ist es fertig  
(English: I loved you, but because of your greed this has ended)
