

# Fool for Your Love

[Mickey Gilley](#)

I'm just a fool for you, baby  
I'm just a fool for your love  
You take me half the way to heaven  
And you know that's not enough  
I'm just a fool for your love You've got me wanting to be near you  
You know I want this love to grow  
You say you like to keep things simple  
And you don't want any tides  
But I see a different story in your eyes I'm just a fool for you, baby  
I'm just a fool for your love  
You take me half the way to heaven  
And you know it's not enough  
I'm just a fool for your love You try to act like it don't matter  
You said you've felt this way before  
Say you only want your freedom  
And you don't need nothin' more  
Here you are just knocking at my door I'm just a fool for you, baby  
I'm just a fool for your love  
You take me half the way to heaven  
And you know it's not enough  
I'm just a fool for your love You take me half the way to heaven  
And you know it's not enough  
I'm just a fool for your love I'm just a fool for your love
