More Than You Know

Emanon

Its been four months, three days, too long since you left.
There ain't no space between us in my head.
And I'm not sure what to do, when I'm here and theres no you.
But a thousand miles ain't so bad.
It seems like when I'm without you every color just turns blue,
Love songs sound so out of tune,
Jeans don't fit like they used too.
Of all the words this song plays there's only four I'm trying to say,
Cause every time you go I miss you more, more than you know.
I called you just to tell you 'bout my day.
Cause New York couldn't feel further away.
And I'm not sure what to do, when I'm here and there's no you.
But a thousand miles ain't so bad.
It seems like when I'm without you every color just turns blue,
Love songs sound so out of tune,
Jeans don't fit like they used too.
Of all the words this song plays there's only four I'm trying to say,
Cause every time you go I miss you more, more than you know.

You're outta sight, and outta mind.
Weird because you're still on mine.
You close your eyes and look real close.
You're never really that alone.
It seems like when I'm without you every color just turns blue,
Love songs sound so out of tune.
It seems like when I'm without you every color just turns blue,
Love songs sound so out of tune,
Jeans don't fit like they used too.
Of all the words this song plays there's only four I'm trying to say,
Cause every time you go I miss you more, more than you know.
It seems like when I'm without you every color just turns blue,
Love songs sound so out of tune,
Jeans don't fit like they used too.
Of all the words this song plays there's only four I'm trying to say,
Cause every time you go I miss you more, more than you know.
Cause I think you should know I love you more, more than you know.
