

# I Always Get Caught In the Rain

**Dionne Warwick**

I fall in love and I get hurt  
When bad luck hits I get it first  
To try again seems useless now  
I'll get hurt again anyhow'Cause I always get caught in the rain  
It seems my heart stays in pain  
I always get caught in the rain  
It seems my heart stays in painA sunny day, life's so gay  
Then suddenly it goes away  
Without a warning, lightning strikes  
I'm heading for another lonely nightI always get caught in the rain  
It seems my heart stays in pain  
I always get caught in the rain  
It seems my heart stays in painLa la la la  
La la la la  
Caught in the rainI always get caught in the rain  
It seems my heart stays in pain  
I always get caught in the rain  
It seems my heart stays in painI always get caught in the rain  
It seems my heart stays in pain
