

Goat of Departure

The Black Dahlia Murder

Goat of departure on his back rides their shame
Antithesis of their ivory Christian chains
Fearful thee ovis their weakened hearts and minds
We are the satyrs of hedonistic kind
Less travelled is our path
Laid darkly to the left
Footprint of Mendes emblazoning our armored breast
Great bearded Capra who towers oe'er the land
A tribute to your magnificence the feared sign of the horns shows on our hands
Azazel the damned ibex
Swath of scarlet ties his neck
To the desert banished yet
Our curse lives on
Embrace the glory the goat
Worship the one who burns below
Heretic liberation of the soul
Dispel their false salvation as a whole
Misunderstood our lord
Preserver of the horde
Footprint of Mendes enchants our angel cleaving swords
O silvered Capra taught us to fear no man
In your honor we have gathered strength to rid their aging falsehoods from this land
We'll fight their kingdom
high
The burdened scapegoat cast aside
Like he has we shall too survive
Melding our powers undenied
Order of Ebon we are his righteous blade
Reich of satanic rule the iron might of Baphomet
Bringers of chaos we are an antichrist
Swing spiked morning stars to crush his kingdom our delight
Danse ye now unto to the satyrs' lyre
Spring heeled devotion to hell's eternal fires
Instinctively to follow thine desire
We should ashamed not be preservation of the will is key
Embrace the glory the goat
Worship the one who burns below
Heretic liberation of the soul
Dispel their false salvation as a whole
We'll fight their kingdom high
As the burdened scapegoat cast aside
Like he has we shall too survive
Melding our powers undenied
