Never Looking Back

Generation Unleashed

You came to save us
You made a way were there was no way.

Your love has changed us
And all I want, all I want to do is praise Your name.

You came, Earth you created
You came from everything from God above.

Your grace so freely given
Your the one, all I want to do is praise Your name.

With everything I am I'm gonna give you praise
Never looking back I'll never be the same

Your all, all that I'm looking for

You came to save us
You made a way were there was no way.

Your love has changed us
And all I want , all I want to do is praise Your name.

With everything I am I'm gonna give you praise
Never looking back I'll never be the same.

Your all, all that I'm looking for .
.
No height or depth can ever separate us
Nothing in this world can shake us
I will not be moved.

All that I'm looking for.
