Blame Me

Lo-Pro

So I ruined everything by ever coming into your life
Please forgive meEvery day I wish I could better
So you wouldn't feel this way
But nothing I do matters
It's always me you blameAs I take another hit I can't get any lower in your eyes
So I've been reduced to this
I'm just another victim of your lies
Please forget meEvery day I wish I could better
So you wouldn't feel this way
But nothing I do matters
It's always me you blameIt's always me you blame
It's always been this way
You'll never changeNow every day I wish I could better
So you wouldn't feel this way
But nothing I do matters
It's always me you blame
