

Broken Hearted Savior

Big Head Todd and the Monsters

Fields are white in snowy spring and I can't remember
The last time that I've seen her
The highway is still cold and wet and I can't forget
The way I had to leave her And every passing day
She flickers and she fades
Is someone to catch her
When she falls from the Heavens? And I'll love her yet, she has done me wrong
And I'll bring her back, she has been long gone
And I'll always be her broken hearted savior, yea And every heavy night takes out
The little life that's left within her
Every man she gives her love, he takes it
And leaves her with a dinner Our love was once a flame
Now I'm just a forgotten name
Am I the only one to blame
For having loving her? And I'll love her yet, she has done me wrong
And I'll bring her back, she has been long gone
And I'll always be her
Broken hearted savior, yes, yea, no, no, no And I'll love her yet, she has done me wrong
And I'll bring her back, she has been long gone
And I'll always be her
Broken hearted savior, yes, yea, no, no, no
