

In Us I Believe...

RyanDan

At the first sight of you
I knew that you were special
Oh you left me warm but confused
 I loved you so that I
 Could not breathe
Because in us I believe When we are apart
 I still can feel you with me
 I can trace every line in my mind
 You are etched all over the heart of me
Because in us I believe And we have all the time in the world
 You and me
Because in us I believe
 Yes, in us I believe
