

# Guilt (Dan Carey Mix)

## The Long Blondes

You know what it's like  
This happens to everyone once or twice  
You were driving off in a taxi  
Leaning out the window and shouting your number  
But I got me, I got away by the skin of my teeth that time  
And you were telling me; you were dancing close to me  
And you were telling me you had an idea  
But don't say I shouldn't worry til the morning cause Im worrying now  
I got a boy and we've been together you see  
Before I knew you  
Before you knew me  
Now I've made my choice  
And I'm sticking to it  
Guilt has nothing, nothing to do with it  
Guilt has nothing, nothing to do with it  
Guilt has nothing to do with it  
We were driving off in a taxi  
You were looking out the window  
And I was looking down at the floor  
There's nothing to say anymore  
We both know why we're here  
And now you tell me  
You've got me in your room  
And now you're telling me you want this to work  
But don't say I shouldn't worry til the morning cause Im  
worrying now  
I got a boy and we've been together you see  
Before I knew you  
Before you knew me  
Now I've made my choice  
And I'm sticking to it  
And Guilt has nothing, nothing to do with it  
Guilt has nothing, nothing to do with it  
Guilt has nothing to do with it  
So tell me when you're out next  
So I dont go out too  
Then make a fool of myself again  
So tell me when youre out next  
So I dont go out too  
Then make a fool of myself again  
I've made my choice  
And I'm sticking to it  
And this has nothing to do with it  
I've made my bed Im gunna lie in it  
And guilt has nothing  
I got a boy and we've been together you see  
Before I knew you  
Before you knew me  
Now I've made my choice

And I'm sticking to it  
And guilt has nothing, nothing to do with it  
Guilt has nothing, nothing to do with it  
Guilt has nothing, nothing to do with it  
Guilt has nothing, nothing to do with it  
Guilt has nothing to do with it You know what it's like  
This happens to everyone once or twice
