Judy Garland

Craig Cardiff

i keep recalling us at the airport
saying good night for the last time me
i managed a smile as you made nervoussay hey, hey never mind
every song sounds like a love song
every kiss feels like your first
i'm afraid i'm losing you
from better than bad back to worsehey i never told you you're my judy garland
me i'm your cyclone
calling out to kansas but you were never homeevery song sounds like a love song
every kiss feels like your first
i'm afraid i'm losing you
from better than bad back to worse
