

# Last Call

## Dilba

Dilba

Darling, don't be afraid of  
darkness

Leave your fear with me  
Don't be convinced by words  
from the loveless

Don't listen to what they say  
Turn around, your pain  
is happiness disguised  
in different colors

Bring joy when skies are gray  
and you'll find love is in  
everything

Hold on don't hesitate  
please don't worry  
I'll be here all the way
