Keep Looking Up

Landon Pigg

Like a little locket hangs
Round your little neck so closely to your heart
So shall I be foreverI know you're going somewhere new
And I know it's never gonna feel like home to you
But this time the only way around is throughSo keep looking up, on past the birds
And keep looking up past the clouds
And when you reach up and clear away the stars
I will be there where you areLike a little locket hangs
Round your little neck so closely to your heart
So shall I be foreverAnd even if you run away
Put on all your dark clothes, hide in shadows
Just remember this one thingKeep looking up, on past the birds
And keep looking up past the clouds
And when you reach up and clear away the stars
I will be there where you are
I will be there where you are
I will be thereKeep looking up, on past the birds
And keep looking up past the clouds
And when you reach up and clear away the stars
I will be there where you areKeep looking up, on past the birds
And keep looking up past the clouds
And when you reach up and clear away the stars
I will be there where you areSo closely to your heart
