When It Was Now

Atlas Genius

We dont speak the same words
Im lost, lost in the pages of
A cold read of this verse
Its something we dont know the meaning ofLet it go, go do what they want
I know, oh shes not in love
Start low, low and feel it come
Oh yeah, we know what we wantAnd it is, what is was
Until you let it go
And it was, what it is
Yeah, you gotta let it goAlmost too much to be enough
Ill make it out somehow
I know youre watching
Oh, dont you miss it
When it was nowDrum beat in your heart
You cant speak, cant even start to explain
Oh yeah, we played the wrong gameLet it go, go do what they want
I know, oh shes not in love
Start low, low and feel it come
Oh yeah, we know what we wantAnd it is, what is was
Until you let it go
And it was, what it is
Yeah, you gotta let it goAlmost too much to be enough
Ill make it out somehow
I know youre watching
Oh, dont you miss it
When it was nowAlmost too much to be enough
Ill make it out somehow
I know youre watching
Oh, dont you miss it
When it was nowSnow capped heart dont melt
No, dont be fooled by what we say
See, like they know, but they dontSnow capped heart dont melt
No, dont be fooled by what we say
See, like they know, but they dontAlmost too much to be enough
Ill make it out somehow
I know youre watching
Oh, dont you miss it
When it was nowAlmost too much to be enough
Ill make it out somehow

I know youre watching
Oh, dont you miss it
When it was now
