

Pieces

Grasscut

Just keep moving round the pieces
Just keep moving round the pieces
Just keep moving round the pieces

Just keep moving

I want to make some more

I want to make some more

Understand it

I want to make some more

I want to make some more

I want to make some more

the time it takes to understand it

I want to make some more

I want to make some more

I want to make some more

The time it takes to understand it

I want to make some more

I want to make some more

I want to make some more

The time it takes to understand it

In the narrow lights

In the darkest reaches

I remake myself as i

So awake again

oma docks retreating

I remake myself as i

In the narrow lights

In the darkest reaches

I remake myself as i

Just keep moving round the pieces

So awake again

oma docks retreating

I remake myself as i

Just keep moving round the pieces

I want to make some more

I want to make some more

I want to make some more

The time it takes to understand it
