Disbelief

Lifer

Tell me when you've had enough
I know I need someReally huh, do you want some of this?
Do you wanna try?Do you think that you've had enough?
Tell me you're falling in love
But I know that you sleep aloneReally huh, do you want some of this?
Do you wanna cry?
You still think you love meI asked you something
Since you know everything
Can you believe that shit?
Can you believe that shit?Tell me you think you are right
I know that you are notReally huh, do you want some of this?
Do you wanna try?
Do you still think you are right?I asked you something
You think, you know everything
Can you believe this shit?
Can you believe this shit?I asked you a question
Since you know everything
I don't believe that shit
Can you believe that shit?[Incomprehensible]I asked you something
You think, you know everything
Can you believe this shit?
Can you believe this shit?I don't believe that shit
Can't you believe your shit?
I don't believe your shit
I don't believe
