

American Boy

American Idol

Hollywood couldn't keep me for good
'Cause I've seen enough of the ocean
They all wait since I've been around
Hope you still take my revelation It's of no consequence
'Cause I thought I heard you say
I'll wait for you to come around again
Don't let it bring you down
Because I did it, I'll get there anyway
You're home and I'm on my way Who would steal back american ride
It's the only thing I know
Hot summer drive, middle of the night
Hope to make my first stop
With my great pal by my side Bang, bang, bang Hot summer drive
Middle of the night
I'm a coming
I'm a coming Hot summer drive
American ride
I'm a coming
I'm a coming
