

Contagious

Guttermouth

[Chorus:] One look at you is so contagious

One kiss and mononucleosis

Like a pit bull bite or staring at the sun

One look is all it took to notice

One kiss and you have left me joyless

Like a fugitive or love with no passion

Was this a test

A test to reinforce I was obsessed

A test to see how much I would digest

A consciousness mind rape

But then you go and beat me like the rest

[Chorus]

I wonder why

You'd taken all my money

Then you'd lie

And when there was no more I pacify

You're every need and whim

But then you go and bleed me til I'm dry

I wonder why

You'd taken all my money

Then you'd lie

And when there was no more I pacify

You're every need and whim

But then you go and bleed me til I'm dry

[Chorus]
