

Tenderloin

Rancid

Realize you're dehumanised You criticize your existence It's your demise when
no sun arise When you're paralyzed by your lack of resistance
She knows she is
she knows she's goin' down below where the fire's glowing tenderloin
The
tricks she gets them she's not a victim She makes a list of them and reads
them all Alone for money she's walkin' down on larkin'
In T.I. they're rockin
all night long
