

# Rain

## Radial Angel

rain falls so hard, i can't sleep at night  
you look so right, so how could i fight  
you will be there, because you always cared  
love is my friend where were you, when i needed you  
    you were there i fall to my knees  
        that's when i pray  
        that's when the tears fall  
that's when i say where were you, when i needed you  
    you were there (chorus)  
        you wait there  
you wait for me i know that you're there  
    you've called my name  
    and it's one more last time  
        for me to say
