

# Timeless

## Kamaliya

If I stand or I should fall  
You know me well, you see it all  
and you'll never walk away, you'll never walk away  
my darkest nights my deepest fears  
I cry to you and you will hear me  
You'll never walk away you'll never walk away Like sands in side the hourglass  
We're every moment future and the past  
We'll never fade away We could be timeless  
We could be boundless  
Just like a river, river, river  
Just like a river, river, river  
Our love is deathless  
Our love is endless  
Just like a river, river, river  
Just like a river, river, river  
Where I belong and you will be  
Where all of you is all of me  
Beyond the day we die, beyond the day we die  
this love has captured all we are  
Eternally we're made of stars  
beyond the day we die, forever you and I Like sand inside the hourglass  
We're every moment future and the past  
We'll never fade away We could be timeless  
We could be boundless  
Just like a river, river, river  
Just like a river, river, river  
Our love is deathless  
Our love is endless  
Just like a river, river, river  
Just like a river, river, river  
When Shadows come and days are gone cold  
You always keep me warm  
I know you will see me, I know you will see me  
You Know my worst you know my best  
When I lay down to rest  
I know you will keep me, I know you will keep me  
We could be timeless  
We could be boundless  
Just like a river, river, river

Just like a river, river, river

Our love is deathless

Our love is endless

Just like a river, river, river

Just like a river, river, river
