I Forgot

Steve Strongman

Down in the alley
What's your mother made of?
Heads up, seven up
Ding dong, come in
I left my wood paneling
On the embassy coat rack
Where is mankind?
My big black behind
Follow your star
Play your guitar
I said candy land
He said toy land
Queen frosting
Eleventeen marzipan
Adam?
I forgot
Where is mankind?
My big black behind
Follow your star
Play your guitar
Ahh
