Mutilate the Stillborn

Necrophagist

Dismembering - to chop her body I begin
Bastard - bastard inside
Disfiguring - abdominal wall is opening
Offal - come to sightMalintention, to chop the foetus I intent, hateful am I
Vile malodours, rancid odours I perceive
I'm getting highHate and repulsion is that
Which strenghtens my intent
Fetal incising causes premature decease
Loathing am I to commit
Infanticide in unborn state
To tear out the foetus, my aggressions do increaseMutilate the stillborn
Mutilate the stillborn
Mutilate the stillborn
Mutilate the stillbornDismanteling - excoriate the dead unborn
Vile waste - vile waste inside is
Festering - prenatal fluids I adore
Offal - come to sightMutilation, the stillborn body chopped in half
Hateful am I
Disemboweling,
The torso drained of tepid bowels
I'm getting high
