# One Trust

## The Last Goodnight

Four months from February
I know somehow I will get over you
My father, he told me
Watch out the girl, she likes to bend the truth
Sometimes your eyes they lie to me, tonightOne love, don't you chase it
One life, don't you waste it
One trust, one trust
You knew just how to break itYour mood swings, they adore me
My friends are watching me, die over you
Somebody, please save me
I've taken all I can from your abuse
This time your eyes they lie to me tonightOne love, don't you chase it
One life, don't you waste it
One trust, one trust
You knew just how to break it
And I don't know how to take itThe look on your face
Your lips they taste, it's all a waste
This love and this hate
I cannot erase this hurt, it's too lateOne love, don't you chase it
One life, don't you waste it
One trust, one trust
You knew just how to break itOne love, don't you chase it
(The look on your face)
One life, don't you waste it
(It's all gone to waste)One trust, one trust
(This trust and this pain I cannot erase)
You knew just how to break itOne love, don't you chase it
One life, don't you waste it
One trust, one trust
(This trust and this pain I cannot erase)
You knew just how to break it
(It's too late)
And I don't know how to take it
