

Two Streets

Val Doonican

I'm so confused
Because I don't know what to do
'Cause the break that I have worked and waited for
Has come knocking at my front door

CHORUS :

Two streets ... One of them leads to the world I love
And the other one the street that leads me home
Two streets ... Which one will I take ? I do not know
If I take the first one , I'll be on my own ... On my own

Love is so strange
Since meeting her my life has changed
I always thought I knew what I wanted from life
In my plans there was not a wife

CHORUS

When she kisses me
I know just where I want to be
But this new job that i've found takes me away
Should be leaving this place today

CHORUS
