Dry Bones

Max Q

My soul cries out
My soul cries out for youThese bones cry out
These dry bones cry for you
To live and move
'Cause only You can raise the dead
Can lift my head upMy soul cries out
My soul cries out for youJesus, You're the one who saves us
Constantly creates us into something new
Jesus, surely you will finds us
Surely our Messiah will make all things new
Will make all things newMy soul cries out
My soul cries out for youThese bones cry out
These dry bones cry for you
To live and move
'Cause only You can raise the dead
Can lift my head upJesus, You're the one who saves us
Constantly creates us into something new
Jesus, surely you will finds us
Surely our Messiah will make all things new
Will make all things newLife is breaking out, it's breaking out
Life is breaking out, it's breaking out, it's breaking outAnd life is breaking out, it's breaking out, it's breaking outJesus, You're the one who saves us
Constantly creates us into something new
Jesus, surely you will finds us
Surely our Messiah will make all things new
Will make all things new
