

Two Steps Back

Tiza Brown

Two Steps Back (Brown-Bovet)

One step forward
Take two steps back
Traveling there on these
These crooked tracks
Making promises
One can't take back
Move one step forward
Go two steps back

Two steps - Steps back

Just when I thought that I
Had my lessons learned
Well after all, I find
Myself take two steps back

Gave you my lovin'
Right there in the grove
Said you'd come back for me
Fore the break of dawn
Left me waiting right there on my own
Took one step forward and
You were two steps gone

Two steps - Steps back

Sexual appeal makes it all feel real
Then the curtains fall and love and desires they crash
Just when I thought that I had my lessons learned
Well after all, I find myself take two steps back

Feeling lonely
Gave into the mood
When you walked through my door
You were up to no good
Pulled into your force field
Braced for the fall
You took one step forward

(I was two) steps from the wall

Two steps - Steps back

Nothing is ever what it seems between a woman and her man
But you can't be blamed, when you've done all, all that you can

Sexual appeal makes it all feel real

Then the curtains fall and love and desires they crash

Just when I thought that I had my lessons learned

Well after all, I find myself take two steps back
