

# Hypnotized

## Lunic

In the calm after the storm  
There's a light under the door  
In a straight line it shines  
Flickering it disappears  
And the shadows hide my tears  
This time I cry  
Who are you?  
You  
Rainbows dance across your face  
In this wild and empty space I hide  
Hypnotized  
And the warmth within your gaze  
Takes me to a better place  
Up high I fly  
To you  
You  
Gone  
Blue  
You  
Where are you?  
You
