

# New World

## Tom DeLonge

I've heard a phantom ring  
I've awakened to a lie  
Prying up the eyes  
To a shitty view with a shot of life

I felt a tidal wave  
And I watched the city lights  
Illuminate 'em bright  
And a little walk in the dead of night

Why must, we not, act tonight  
Too many lies here

We wait, the knife, we take a bite  
Nobody wins here

It violates and blinds the eyes  
But I found a new world

So seventeen again  
I can hear the bell and tower  
I will be devoured  
Will ya follow me to the witching hour

Why must, we not, act tonight  
Too many lies here

We wait, the knife, we take a bite  
Nobody wins here

I've lost, the nerve, I'm finalized  
Too many die here

I fall hands down, I pray  
I don't give an F-U-C-K

It violates and blinds the eyes  
But I found a new world

My head will ache, I brave the fire

Yeah, I found a new world

My heart awaits, the grand design  
I found a new door

I'm un-contained, I'm crucified  
I found a new world, I'm lost deep inside of it
