

Watch Me Now

Ultramagnetic MC's

Watch me now

Watch me

Watch me now

Yo Kool Keith, why everybody gotta watch you? Well I'm the ultimate, the rhyme imperial

I'm better, but some don't believe me though

But I'm a pro in hot material

On your Walkman, box or any stereo Uno, dos not quarto

Spanish girls, they like to call me Pancho

On the mic, innovating this pat-ter-en

You fell off, your brain is on Sa-tur-en Take steps, and climb my ladder

And climb, climb, climb

Pace the rhythm, and clock the time

That I leave, come back on beat Different, telling and selling

Like a Skyjet, plane propelling

But dwelling, deep in your skull

My rhyme shines, and yours is dull Like dirt, it hurt to be whacker

But instead, I'll grab a big stack of whack

MC's, lay em down like tile

Scrap and garbage, germs I'll pile to keep clean I'm a movie scene

Ears turn, and needles lean

To cut scratches, in a part that matches

I'm leavin' eyes, and brains with patches Stuck, so push my luck

For any roach, or MC duck

Just watch me Watch me now

Word up, watch me now, suckers!

Watch me now

Yo Ced Gee, why everybody gotta watch you? I'm livin' large, my record's on the radio

Everyday, you hear me, your stereo

Rappin' hard, with lots of volume

You hear static, well use your fine tune Knob, to tune me in better

'Cause I'm Ced Gee, and I would never

Let a whack MC G off with style

Touch my mic, rip and smile Like a duck, you know you are a soft punk

Livin' pink, your material sucks

Liver and worse than you can imagine

You best run, 'cause I'ma put a badge in your brain So you can see the real time

Grab a pen, and write down my rhyme

And learn it and learn it and learn it, until it sinks

Inside your skull and you're no longer pink but red 'Cause now you are a biter

Learnin' from me, so I guess that is Oreida
 Except if you try to be the original
 Rhyme imperial, the exceptional Gee Sometimes I rhyme offbeat, awkward
 But different with the rhythm
 Back and forth one two and then I give 'em
 A chance to see the world's greatest MC just watch me Watch me now
 Word up, you gotta watch me now
 Watch me now
 Moe Love, you needs to groove I'm continuin'! Back and forth your brain spins
 Facing North and south and West, not East at a angle
 But mines dangle, where's your Kangol?
 It seems weird, your head is triangle Like a mango, somethin' I snack on
 A soft duck, somethin' I smack on
 Everyday, when I come outside
 You step back, stay inside your house While you look out your window
 Your girl screams, "Where Kool Keith go?"
 Walkin', while punks keep talkin'
 Annoyin' me, MC's hawkin' On the stage, any time
 I'm cold chillin', I'm wearin' the rhymes
 To keep warm, with the beat that's playin'
 You hear me now, you know what I'm sayin' To you, you and you
 Your whole organization and crew
 Just watch, as I enter your mind
 Decorate, and paint my sign I'm hazardous, so scatter this around
 I'm Kool Keith, knockin' MC's down
 Just watch me, and him Rhythm with madness, I had to have this chance
 To rock again so you can hear this
 Over and over and over, until I'm finished
 Hey but I'm not, so here's the rhythm A rap beat, step beat keep feet happy
 As we gradually slowly we'll teach all how to rap
 I will attract all the def girls
 Smack the ugly ones back And sit, as I chill, I'm drinkin' Moet
 Expensive champagne cause Ced Gee is a poet
 Rappin' and teachin', reachin' levels higher
 Don't wanna be king, so don't call me sire But instead, a scientist, with the breakthrough
 My rap is funky, it can relate to you
 Him, her, your little brother
 His older sister, your baby's mother Cousins, aunts, your whole family
 In other words, Ced Gee, I'm absolutely
 The best producer, at makin' rap music
 I know how to use it, so just watch me Watch me now
 Yo, this is TR Love, tellin' y'all to watch this
 Watch me now
 Germs! And we out
