

Lonely Without You (This Christmas)

Mick Jagger

I'm going to be lonely without you,
going to be a lonely, lonely Christmas without you.

My future's looking bleak, oh so down I could weep. It's the saddest time of the year, oh yes it is,
Oh it's going to be a lonely, lonely Christmas without you It's going to be a lonely, lonely Christmas without you

There's no presents under the tree

There's nobody waiting for me

Oh but you never know, never know what's coming round It's the season of good will, Oh I guess I love you still

Be a lonely, lonely, lonely, lonely, lonely, lonely, lonely Christmas without you.
