Square One

Coldplay

You're in control, is there anywhere you wanna go? You're in control, is there anything you wanna know?

The future's for discovering

The space in which we're travelingFrom the top of the first page

To the end of the last day

From the start in your own way

You just want somebody listening to what you say

It doesn't matter who you areUnder the surface trying to break through

Deciphering the codes in you

I need a compass, draw me a map

I'm on the top, I can't get backThe first line on the first page

To the end, at the last place

You were looking

From the start in your own way

You just want somebody listening to what you say

It doesn't matter who you are

It doesn't matter who you are You just want somebody listening to what you say

You just want somebody listening to what you say

It doesn't matter who you are

It doesn't matter who you areIs there anybody out there who is lost and hurt and lonely too

Are they bleeding all your colors into one?

And if you come undone as if you've been run through

Some catapult, it fired you, you wonder if your chance will ever come

Or if you're stuck in square one
