Invisible Things

Handmade Moments

invisibleÂ things, invisible things that we believe in
but when mama speaks no one really seems to hearÂ
but she's the reason whyshe's the reason why we're breathing
and once we're too far gone, there's just no way out of here

the real forefathers begged, mr. king oh please believeÂ us
this land in which we share belongs to nobody you see
but so help me god, so help me jesus
industry comes along with its giant metal teethÂ

it's a wild world, it's a wild world that we live in
Â it's a very, very wild worldÂ

inconsistencies can you tell me where the cash is
but when the poor man needs no one seems to give a damn
the lord he's got it all, he don't got to pay no taxes
and he can always trust, trust an honest man

oooo [guitar solo]Â

invisible things, man i swear it never happenedÂ
as the arsenic drips into my drinking cupÂ t
he earth she shakes and quakes so why the hell are we still fracking
and once we lost it all, still can;t seem to get enough

it's a wild world, it's a wild world that we live inÂ
it's a very, very wild worldÂ [x2]
