Searching for Ground

Madcap

Float a boat across the sea to islands in the sun
Take a plane across the world in miles you won't find
Someone who will love you quite as much as meToo much time talking, you're talking, you're talking again
Now you see me walking, I'm walking
Go start looking, but in looking you won't find
Someone like me who gave up all the timeYou will spend the rest of your life
Searching for ground
'Cause away from me
Everywhere you walk is caving in nowYou will spend the rest of your life
Searching for ground
'Cause away from me
Everywhere you walk is caving in nowTake a look around you, around you, around you
Now you are alone girl, alone girl, alone girl
Go start looking, but in looking you won't find
Someone like me who gave up all the timeYou will spend the rest of your life
Searching for ground
'Cause away from me
Everywhere you walk is caving in nowYou will spend the rest of your life
Searching for ground
'Cause away from me
Everywhere you walk is caving in nowTime won't heal a thing
These wounds you've made run too deep
One day you're gonna see
Well, you could wrap them up, but it won't be meYou will spend the rest of your life
Searching for ground
'Cause away from me
Everywhere you walk is caving in nowYou will spend the rest of your life
Searching for ground
'Cause away from me
Everywhere you walk is caving in now
