# Someday

## Cobrayama

Verse 1:

Thereâ€™s a special place downtown
Where I like to take my lover
But see I canâ€™t call her lover
Cause someone else calls her lover

But when she act like, I'm the greatest man in the world
There can be nobody better
And she goes home to someone better
I ainâ€™t got self-esteem so I let her

She doesnâ€™t understand, we could be everything
Sheâ€™d be looking for and some other
But maybe, just maybe Iâ€™m the other
So I got other plans for my lover

Chorus

We can get lost together
Fly awayyyy
I can be yours forever
Maybe someday

And if there is love, Is it something you want
Is there someone you take for granted
And if you come close, then baby who knows
This could be how you planned it

Verse 2:

Michael are you thinking, Michael are you drinking
Are you a child again romanticizing everything like
The guy that gets the girl
But who says he deserves her

So maybe its just one of those things
you leave well enough alone
Donâ€™t be the man who wrecks a home

Or fuck it keep on keeping on

Chorus

We can get lost together
Fly awayyyy
I can be yours forever
Maybe someday

And if there is love, Is it something you want
Is there someone you take for granted
And if you come close, then baby who knows
This could be how you planned it
