# Everything (Loco Dice Remix)

## Neneh Cherry

Everything, anything I see
Anything, everything I feel
Everyday, anytime I know
Anything everyone has to goChampagne lingers in my glass
Party's over
I see my reflection sipping
And it reminds meI'd like to see you
Having more fun
If you can
I look at you
But it's me I seeIt's everything I know
(It's me I see)
It's everything I feel
(It's me I see)
It's everything and everyone around me that I see
Everything is real
Everything I feelIn my mirror
I see myself
In that mirror
Inside myselfSometimes I feel it coming to me
Thinking of you when I'm looking at my body
I can touch myself with my own understanding
My resolution to be broken that I see now(But it's me I see)
And it's everything I know
(It's me I see)
And it's everything I feel
(It's me I see)
And it's everything and everyone around me that I know
Everything is real
Everything I feelNo real solutions
In clippings from the past
I see my reflection at lastBooks full of pictures
Remembering the blasts
Times consequences
Makes me go fast(And it's me I see)
And it's everywhere I go
(It's me I see)
It's everything I see
(It's me I see)

And it's everywhere I go, yeah
(It's me I see)
And it's everything I feel(It's me I see)
And it's everywhere I go
(It's me I see)
And it's everything I see
(It's me I see)
And it's everything and everyone around me that I love
Everything is real
Everything I feel
