

# The Way That You Are

## Atomic Kitten

Baby, baby  
Baby you're the one  
Keeping me awake baby all night long Looking it over  
Thinking about all the times we've spent together  
Don't worry about it  
'Cause the feelings I have no longer seem to be with me The morning moved on to the night today's away  
Falling apart 'cause the night can't take the grey The way that you are  
The look in your eyes  
Feels like my world is coming together  
The way that you smile  
Just for a while  
I know it took sometime to discover  
You're the only one Baby, baby  
Baby you're the one  
Keeping me awake baby all night long Made it through the bad times  
Cried all my tears have to move on with my life now  
Know that I will be strong  
Now you'll always be mine never one to say goodbye The morning moved on to the night today's away  
Falling apart 'cause the night can't take the grey The way that you are  
The look in your eyes  
Feels like my world is coming together  
The way that you smile  
Just for a while  
I know it took sometime to discover  
You're the only one Baby, baby  
Baby you're the one  
Keeping me awake baby all night long No more heartache to get me down  
No more sadness to be yeah  
No more waiting till you come round  
You know that you're the only one for me  
For reasons maybe only I can see  
Yeah The way that you are  
The look in your eyes  
Feels like my world is coming together  
The way that you smile  
Just for a while  
I know it took sometime to discover  
From one broken heart to another  
You're the only one Baby, baby

Baby you're the one  
Keeping me awake baby all night longBaby, baby  
Baby you're the one  
Keeping me awake baby all night long
