Feels Like Forever

Of Mice & Men

I saw you
That was all I had to see
Wanted you
Had to have you next to me
From that moment
I knew that you'd be all I'd ever needAnd there's a place inside my heart
Nobody's touched before
And when I found you
I found all that I'd been searchin' for
You turned my world aroundAll I know
Is it feels like forever
All I know
Yes, I love the way it feels
All I see
Is how good we are together
And I never wanna see it slip away
I'll never let you go
Is all I knowHold me
Love is here for us to make
Stay with me
Let's put our hearts in the hand of fate
Time will tell us
If what we got was worth the waitAnd there's a fire that's been burning
Deep inside of me
And I don't need nobody else
'Cause now you're here with me
You've turned my world aroundAll I know
Is it feels like forever
All I know
Is I love the way it feels
All I see
Is how good we are together
And I never want to see it slip away
I'll never let you go
Is all I knowI might have never met you
At another time or place
Now I never could forget you
I could never walk away
That's all I know'Cause there's a place inside my heart

Nobody's touched before
And when I found you
I found all that I'd been searchin' for
You've turned my world aroundAll I know
Is it feels like forever
All I know
Is I love the way it feels
All I see
Is how good we are together
And I never want to see it slip away
I'll never let you goAll I know
Is it feels like forever
(All I know)
I just love the way it feels
(All I see)
All I see
Is how good we are together
And I never want to see it slip away
I'll never let you goIt's all I know, aaah
Is it feels like forever
(All I know)
All I know
Is I love the way it feels
(All I see)
All I see
Is how good we are together
Yea, that is all I know
All I know
