Get Me Away From You

Hinder

You're past the point, of bad for me
I must be drowning, cause I can't breathe
In this hotel room, waiting for you
It's getting kind of crazy what I'm willing to do
You're like the drug, I've grown to hate
But love too much to walk away
From this lonely room, waiting for you
It's getting kind of crazy what I'm willing to lose
So what do I have to do?
Chorus:
To get me away from you
Get me away from you
Something this wrong, feeling this right
Ain't helping me out tonight
Get me away from you, get me away from you
It's way too late, to change my mind
I swear to God it's the last time
I'll be holding you, in this hotel room
It's getting kind of hard to find another excuse
So what the hell am I supposed to do?

Chorus:
To get me away from you
Get me away from you
Something this wrong, feeling this right
Ain't helping me out tonight
Get me away from you, get me away from you
I'll pour a drink
To help me forget
But it drives me back
To my one regret
Get me away from you
Get me away from you
Ohhh... What am I supposed to do?
Chorus:
To get me away from you
Get me away from you
Something this wrong, feeling this right
Ain't helping me out tonight

Get me away from you, get me away from you
Ohhhh
What the hell am I supposed to do?
