Confetti

Lil' Eddie

We hit the ground runnin like a marathon
Suddenly we got lost in the momentum
Took the risk and let my guards down
Believed that you were gonna stick around
These fairy tales turning into these nightmares
The mask is comin off youre looking different
You're nothing like the person that i knew
I'm reachin for you but youre not coming through
You know what you're doing
Tell me is this really the end of the road
Don't let the curtains close
Scattered like a puzzle my heart, it wasn't ready
A million broken pieces coming down
Like confetti, baby
How you gonna fix this now
Confetti shredded confetti
And each and every step that ya take
You're just kickin my heart on the ground
Like confetti, baby
How you gonna fix this now
Confetti shredded confetti
(oohh..)
It's the end of the show
Shredded like confetti
You keep on breaking through the yellow tape
It's too much for you, you rather walk away instead
Never got any sort of this rejection
Without you, baby I feel homeless
You know what you're doing
Tell me is this really the end of the road

Don't let the curtains close
Scattered like a puzzle my heart, it wasn't ready
A million broken pieces coming down
Like confetti, baby
How you gonna fix this now
Confetti shredded confetti
And each and every step that ya take
You're just kickin my heart on the ground

Like confetti, baby
How you gonna fix this now
Confetti shredded confetti
I'm checkin to see if my heart is still beatin
Cause it feels like it had too take
But atleast it was stuck on this sore ache and burnin
Get this stress out of my chest
I'm a mess
Shredded like confetti, yeah (x2)
comin down like confetti
Scattered like a puzzle my heart, it wasn't ready
A million broken pieces coming down
Like confetti, baby
How you gonna fix this now
Confetti shredded confetti
And each and every step that ya take
You're just kickin my heart on the ground
Like confetti, baby
How you gonna fix this now
Confetti shredded confetti
(oohh..)
It's the end of the show
Shredded like confetti
