

The Island

Barbra Streisand

Make believe we've landed on a desert island
Bathe me in the waters, warm me in the moonlight
Taste me with your kisses, find my secret places
Touch me till I tremble, free my wings for flying
And catch me while Im falling Keep your arms around me
Like theres no tomorrow
Let me know you love me On our little island, not a soul can see us
Show me how to love you, teach me how to please you
Lay your dreams beside me, only stars will listen
To our cries and whispers, you were made to love me
And I was made to love you Keep your arms around me
And loose yourself inside me
Make it last forever I can see the island shining in the distance
Now were getting closer keep your arms around me
Oh now were almost there Ooh on our little island not a soul can hear us
Silently exchanging fantasies and feelings
Endlessly exploring, learning one another
Till the morning finds us, you were made to love me
And I was made to love you Keep your arms around me
Loose yourself completely
Make it last forever I can see the island shining there before us
Now were getting closer, just keep your arms around me
Come my love, were there
