We Are Family (Angel's Style)

Nobody's Angel

Nobody's Angel come on
Nobody's Angel
All girls in the house let me hear you screamBoys may come and boys may go
But there's a little something all you girls should know
They could cover you with kisses and diamond rings
Never give it up on material thingsThere ain't a data file they will come on time
When they try to play and mess with your mind
When you're looking for some one you can depend
Don't look any further than your own best friendWe are family
I've got all my angels with me
We are family
And now we are gonna do are own thingI'm not the kinda girl to sit home and wait
For the phone to ring waiting on some date
Love chases with the weather out black the cats
Sometimes I just might change my mindIt's Billy on Mondays, Tuesdays Jack
Forget about bobby I don't want him back
And we phone them on again, my heart again
I'd rather be with my friendsWe are family
I've got all my angels with me
We are family
And now we are gonna do are own thing
SingAll girls in the house let me hear you screamBounce
Flame, bring it out now
Come on baby, what girl
She can keep that
Nobody's Angel
Bounce
Flame
She can keep thatKeep the place bumping
Make it bounce that seat your bumping
'Cuz we're the girls gonna rock your world
Let's get this party jumpin'Keep the place bumping
Make it bounce that seat your bumping
'Cuz we're the girls gonna rock your world
Let's get this party jumpin'We are family
I've got all my angels with me
We are family
And now we are gonna do are own thing
SingWe are family

I've got all my angels with me
We are family
And now we are gonna do are own thing
Sing
