

# Good Good Time

## Dave Matthews Band

Oh stay right here  
So I can catch your smile, it's good  
Stranger in a crowded room  
What did you say your name was? Oh baby  
Let's have a drink, and get to the bottom of this hill  
And once we see the bottom, we know we'll reach another hill  
But you won't be a stranger in a room  
A stranger in this crowded room, with you, a good good time tonight  
Let's go away, all of us, way down  
I know I'll dance again  
Who knows what tomorrow will bring?  
But I know this for sure... that tonight brought a good time  
Good time with me and y'all, it's a good good time tonight  
Oh you're feelin' it too, the light bringin us up  
Troubles away, it's a good good time tonight  
Ah, a good time right here(violin solo)\*skat session\*Just a little more ice and everything's nice \*skat\*  
What do you remember, before the sea was rough and the sky was grey  
Oh but not today, not today, 'cause it's a good good time tonight  
The bad sky will be gone  
Oh play on, oh, good good time tonight  
Sippin' some wine, with good friends  
But you know you're havin' a good good time tonight  
A good good time(saxophone solo)Let's drink to those who can not be here  
Let's drink to those who are gone  
Let's drink to those who will be here soon  
Let's drink to those we lost along the way  
Oh, but this, a tip of your glasses for them all  
It's a good good time  
It's a good good time... tonight  
It's a good good time  
It's a good good time  
Good good time tonight  
A good good time tonight  
It's a good good time tonight
