Special Feeling

Dizzy Dee

(Lionriddims)(Chorus)
It's that special feeling, when you've got your woman next to you
A good good good feeling, she gives you all the time.
It's that special feeling when you've got your empress next to you
A good good good feeling, she gives you all the time.(Verse1)
All I wanted to say was bring your problems to me
And I'll take all your sorrows away and we'll go somewhere really far.
And If you trust what I say, you might see it really clear.
That baby this is no game and I just want you to know its a deal.(Chorus)
It's that special feeling, when you've got your woman next to you
A good good good feeling, she gives you all the time.
It's that special feeling when you've got your empress next to you
A good good good feeling, she gives you all the time.(Verse 2)
I know I've said I won't forsake you
Why would I break you?
Mistakes we have made too and we're only human.
I'm done with the games, let's make sweet love all night.
Especially the way you love it
Kiss and caress me, hold me tight, don't let me go...(Chorus)
It's that special feeling, when you've got your woman next to you
A good good good feeling, she gives you all the time.
It's that special feeling when you've got your empress next to you
A good good good feeling, she gives you all the time.(Verse1)
All I wanted to say was bring your problems to me
And I'll take all your sorrows away and we'll go somewhere really far.
And If you trust what I say, you might see it really clear.
That baby this is no game and I just want you to know its a deal.(Chorus)
It's that special feeling, when you've got your woman next to you
A good good good feeling, she gives you all the time.
It's that special feeling when you've got your empress next to you
A good good good feeling, she gives you all the time.(Sax solo)(Chorus)
It's that special feeling, when you've got your woman next to you
A good good good feeling, she gives you all the time.
It's that special feeling when you've got your empress next to you
A good good good feeling, she gives you all the time.
