The Treaty and the Bridge

Satanic Surfers

Advisory - the following lyrics contain explicit language:

You're not blind, I know you see
but you just don't want to believe that the politicians lie
People have a right to vote for the ones
who can afford to cover up their lies
They let you in when it comes to big decisions
that way it seems like if you have controls to your mind
deep inside your head they plant the lies
they want you to believe
they threaten you with their terror propaganda
'til you do just what they want you to
the power's not in your hands
it's in the money they possess to get just
what they want make up your mind or else
they will make it up for you for sure and
they'll get just what they want
they let you in when it comes to big decisions
but first of all they feed their fucking answers to your mind
propaganda to convince seems to be the one who wins
confidence passifies make you believe in the political lies
so now we're joining the treaty and we're building the bridge
