Back to the Well

Lee Roy Parnell

Got to get back to the well
Drink that livin water
Dive deep in myself
Start feelin like I oughtaGonna get real still
Gonna get my fill
Its been a long, dry spell
And I got to get back
I got to get back to the wellFeelin empty for so long
Wonderin where my faith has gone
I think about how lost Ive been
In a search that never ends
And Ive got to keep movin onGot to get back to the well
Drink that livin water
Dive deep in myself
Start feelin like I oughtaGonna get real still
Gonna get my fill
Its been a long, dry spell
And I got to get back
I got to get back to the wellThis life can be a great wasteland
You got to do everything you can
Only way to quench my thirst
Is start puttin first things firstIts gonna make me a better man
Oh, baby
I got to get back to the wellGot to get back to the well
Drink that livin water
Dive deep in myself
Start feelin like I oughtaGonna get real still
Gonna get my fill
Its been a long, dry spell
And I got to get back
I got to get back to the wellIts been a long, dry spell
And I got to get back
Got to get back to the well
Got to get back to the well
Been a long, dry spell
