Never Surrender (Terrence Fixmer Remix)

Combichrist

Self medicating, craving punishment
Blaming myself for a world on fire
No more shame, no more pity
No more
They raise from the ashes!I will suffer
I will burn
Let hate prevail
Enslaved my soul
But I'll never surrenderSilent words from a bleeding mouth
Swallows pride with a swollen tongue
Everything is nothing, life in a shallow grave
Too ashamed to feel joy, life collecting dust
No more shame, no more pity
No more
They raise from the ashes!I will suffer
I will burn
Let hate prevail
Enslaved my soul
But I'll never surrenderI will suffer
I will burn
Let hate prevail
Enslaved my soul
But I'll never surrender
Never surrenderMental cancer hijacks your brain
Denying the reality you created for yourself
They raise from the ashes
[They raise from the ashes!]I will suffer
I will burn
Let hate prevail
Enslaved my soul
But I'll never surrender
Never surrenderI will suffer
I will burn
Let hate prevail
Enslaved my soul
But I'll never surrender
Never surrenderNever surrender (8x)
