

# Honey Skies

Jessica Domingo

I can feel the sunlight on my skin  
And unexpected feeling  
I still wonder how you bring  
A love like colors and everything

Cause youre so smooth the way you do it, got me really fiening for your vibe, every night  
Donâ€™t know how I gotta do it but I havenâ€™t felt this in awhile  
(Iâ€™m awhile)

[????????????????]

I blame the honey skies, you feel like summer time  
Thereâ€™s nothing I need  
When you hold me [?????]
