Took My Place

Third Day

Lost like a little child
Helpless as a baby
I was searchin' desperately to find
Someone who could save me
Then along came from out of nowhere
Precious as the light of day
You gave me something no one could take away
Yeah, when You took my place
Chained like a prisoner
From the day that I was born
Blamed like a criminal
For the things that I'd done
Then along came from out of nowhere
Precious as the light of day
Well, You gave me something no one could take away
Yeah, when You took my place
Took my place, yeah yeah
Lost like a little child
Helpless as a baby
I was searchin' desperately to find
Someone who could save me, yeah
Then along came from out of nowhere
Precious as the light of day
Well, You gave me something no one could take away
Yeah, when You took my place
Took my place, yeah
Oh, took my place
