

1020 Am

Spoon

1020 AM, 1020 AM
When will I ever see you again?
1020 AM
When will I ever see you again?
I carry you out, it starts to sink in
When will I ever see you again?
You'll be with me still ever from now 1020 AM
'Cause I remember everything you did
And I remember everything you did
Everything you were, everything you said
Yeah, I remember everything you did
1020 AM
When will I ever see you again?
1020 AM
When will I ever see you again?
